

Christian Voith was born in Klagenfurt / Austria. There he attended the academy of physical therapy, where he graduated in 1990.

Then he worked for 10 years in various clinics and hospitals in Germany. During this time he completed his training in Manual Therapy (certificate 1994), and ended the OMT - Training (IFOMT) in 1997 at the European Academy of Orthopedic Manual Therapy in Germany.

In 1998 he also started in the clinical management of CRAFTA® of craniomandibular, cranio-cervical and craniofacial disorders and pain.

Since 1992 he also taught at academies for physical therapy (Bad Säckingen / Germany, Klagenfurt / Austria). During this time he completed a pedagogic qualification for teachers.

Since 1999 he has been in the teaching team of Kaltenborn - Evjenth - system in orthopedic manual therapy and since 2003 in the teaching team of CRAFTA.

Since his return to Klagenfurt (1999) Christian Voith works in his own practice. Here he works exclusively with orthopedic patients and treats patients after sports injuries.

His personal interests are patients with dysfunction and pain in the cranio-cervical and craniofacial region.

In addition, he also treats babies and children with problems in this area.
